

**MOUNTAINBOARD CORRALCO**

If you like a rush of adrenalin you will love our mountainboard tours! A mountainboard looks like a big skatebard equipped with air filled, big wheels. A 4x4 car will tow you up a mountain on a gravel road, which you then descend on your own on the board.

Our tour leads from the entrance of the Corralco ski resort to the base of the Crater Navidad and back (8 km). On the way down you will be followed by the 4x4 tow-vehicle.

Basic knowledge of either snowboarding or skateboarding is essential for mountainboarding.

Bevor taking off to this adventurous trip, you will be given a short lesson in how to handle the mountainboard.
